

## Introduction

This list provides information on the sports anti-doping status for a range of **Australian** medications that might be used during **In-Competition** periods in sports. The information listed here is appropriate during In-Competition periods for sports only. For information on the status of medications during Out-of-Competition periods please call the **ASADA Anti-Doping Hotline 1800 020 506**.

This list uses specific brand names and not generic product names i.e. ingredients. Please ensure that the name of the medication you are checking is exactly the same as the product listed.

To check the status of a medication, go to the [list directory](#) and browse to the alphabetical grouping of the product you wish to check, then scroll down to view the status of the specific product in question.

The symbol corresponding with the product name indicates its status in sport. Each product will be listed as either **permitted**, **subject to conditions**, **permitted for females only**, or **prohibited**. Please check the [key to symbols](#) for an explanation of the meaning of each symbol.

If the product you are checking is not listed here it may be that:

- it is an overseas product
- it is a new product
- you are using incorrect spelling
- you are searching by a generic product name and not the specific brand name.

If the product you wish to check is not listed, please return to [substance information resources](#) for further advice.

## Key to symbols

This table lists the meanings to the symbols used on this page.

Symbol	Meaning
+	Product is <b>permitted</b> for use in sport [based on the <a href="#">World Anti-Doping Code 2007 Prohibited List</a> ]
✦	Product's use is <b>subject to certain conditions</b> . The product may: <ul style="list-style-type: none"><li>• be prohibited in some sports but not in others</li><li>• be prohibited in some forms e.g. depending on route of administration</li><li>• require an Abbreviated Therapeutic Use Exemption (ATUE) to be provided to the relevant sports federation prior to use.</li></ul>
	Please contact the ASADA Anti-Doping Hotline on <b>1800 020 506</b> for more details on a product that is subject to certain conditions.
✧	Product is <b>permitted</b> for use in sport <b>for females only</b> [based on the <a href="#">World Anti-Doping Code 2007 Prohibited List</a> ]
✖	Product is <b>prohibited</b> from use in sport [based on the <a href="#">World Anti-Doping Code 2007 Prohibited List</a> ]
